**Notes:**

- The controller does **not** offer a communication port. In order to download applications, the controller must be installed with an add-on programming port module. Such a module is included in the JZ-PRG programming kit, available by separate purchase.

**Jazz Jack**

Insertion point                      Enables optional add-on modules. See Note 7

**Notes:**

- Add-on modules are available by separate order.

**Communication**

GSM-support	Via add-on port module. See Note 8 SMS messages to/from 6 phone GSM numbers, up to 1K of user-designed messages. Supports Remote Access.
MODBUS	Supports MODBUS protocol, Master-Slave
Baud rate	According to add-on port module

**Notes:**

- In order to enable communications, an add-on module containing a COM port must be plugged into the Jazz jack. The module included in the JZ-PRG programming kit may be used to communicate with external devices, if the device provides active RS232 voltage signals for purposes of power supply. For more details, see the JZ-PRG Installation Guide.
